

**THE INSTITUTE OF LAW CLERKS OF ONTARIO PRESENTS A FELLOWSHIP COURSE IN
e-DISCOVERY & COMPUTER FORENSICS**

September 9, 2008 – December 16, 2008

The Institute of Law Clerks of Ontario “ILCO” is pleased to offer the e-Discovery and Computer Forensics fellowship course to its members and to the legal community.

This practical and solutions-orientated course will be instructed by H&A eDiscovery (“H&A”), a leader in Electronic Discovery and Computer Forensics. H&A is constantly abreast of the latest case law developments and trends from the worlds of law and legal technology where both e-Discovery and Computer Forensics are at the forefront.

PRINCIPLES and BEST PRACTICES FOR E-DISCOVERY and COMPUTER FORENSICS

This highly interactive course is designed exclusively for litigation support professionals, associates and partners in law firms and corporations with an appreciation of large scale document review and production practices.

Upon successful completion, each participant will be able to effectively and efficiently manage the e-Discovery and Computer Forensics processes, and make, or assist in making, strategic electronic evidence decisions as they arise in litigation.

COURSE CONTENT

Course content will include such topics as:

- Introduction to Computer Forensics including learning labs and demonstrations;
- Understanding the e-Discovery Guidelines and Jurisprudence – Canada and the U.S.;
- e-Discovery Project Management including strategy, collection, filtering, processing, culling & output for review and production;
- Searching tools and techniques for winnowing data sets.

Stay tuned for further details on course fees and location.
